FOCUS AREAS

Natural Language Processing: Multilingualism, Cross-cultural Value Adaptation, Knowledge Graphs, Large Language Models.

My research advances cultural value alignment in LLMs through innovative frameworks like the MARK system for multi-stage personality-driven simulations and the DEF inference architecture, enhancing human-like survey responses, achieving 20-30% improvements in fidelity across diverse global contexts. These efforts, supported by funded projects and publications in top venues like EMNLP and NAACL, bridge computational linguistics with social psychology for ethical AI applications.

EMPLOYMENT

2025.4 – 2025.10 **Visiting Researcher**, The Hong Kong University of Science and Technology (Guangzhou).

EDUCATION

2023.9 – 2026.6 (expected) **Ph.D. (Direct PhD Track), Control Science and Engineering**, Wuhan University of Science and Technology (GPA: 3.7 / 4)

Selected for the university's **Elite Talent Development Program** (top ~1–2 % of undergraduates, direct admission *without* master's degree)

Advisors: Jinguang GU

Working thesis: Cross-Cultural Adaptations in Large Language Models

Focusing on Natural Language Processing with an emphasis on cross-cultural and multilingual adaptations in Large Language Model and Knowledge Graphs.

2019.9 – 2023.6 **B.Sc., Software Engineering**, Wuhan University of Science and Technology

AWARDS

2025.10 **National Scholarship (top 1% of students)**, Wuhan University of Science and Technology.

2023.6 **Excellent Graduate (top 1% of students)**, Wuhan University of Science and Technology.

2023.6 **Excellent thesis (top 1% of thesis)**, Wuhan University of Science and Technology.

2021.12 – 2022.12 **School Scholarships (×2 top 10% of students)**, Wuhan University of Science and Technology.

2021.12 – 2022.12 **Excellent student (×2 top 10% of students)**, Wuhan University of Science and Technology.

SELECTED RESEARCH PROJECTS

2025.1 – 2026.1	<i>Constructing knowledge graphs of culture-loaded words and their demonstration application in the cross-cultural field</i> . Co-Investigator (leader Qiaoling XIAO. Philosophy and Social Sciences Fund). 10,000 RMB.
2025.5 – 2025.10	<i>Investigating Cross-Cultural Value Alignment in Large Language Models: Methods for Enhanced Communication Across Cultural Contexts</i> . Principal Investigator. (leader Xun WU. Centre for Governance and Sustainability at NUS Business School and Tencent). Up to 30,000 SGD\$.
2024.8 – 2025.1	<i>Theoretical and practical paths for Hubei provincial universities to carry out high-level applied technology exchanges and cooperation with African countries in subdivided fields</i> . Co-Investigator. (leader Qiaoling Xiao The Soft Science Plan Research Project of Hubei Province). 10,000 RMB.

ACADEMIC ACTIVITIES

2025.10	Volunteer , The Sixth International Symposium on Artificial Intelligence for Medical Sciences (ISAIMS 2025), The 2025 International Conference on Big Data and Intelligent Medicine (BDIMed 2025).
2024.12	Volunteer , CCF Wuhan Member Activity Center 2024 Annual Meeting.
2024.8	Co-organizer , AI + Humanities Seminar and 2024 Knowledge Organization Academic Exchange Forum.
2023.10	Volunteer , The fourth Data Intelligence and Knowledge Services Seminar.
Others	Review , academic conferences and journals like CCL, IP&M, KBS etc.
